# More Info

## why attend?

This program is designed to give you a thorough understanding of the fork truck standards. It will introduce and explain the standards and give you the opportunity to ask questions and receive detailed answers from an instructor who knows the code. After completing this course, you will feel confident in knowing whether or not you and your company are meeting OSHA standards.

## who should attend?

- Safety directors
- Personnel directors
- Safety committee members
- Supervisors
- Maintenance personnel
- Lead people

## our past attendees say it best

“Very informative, well prepared and makes you evaluate your current safety standards. Worth the cost of the seminar.”

—*Jeff Anderson, Truseal Technologies*

“Bill is an excellent trainer and very knowledgeable about the topic.”

—*Drew Chandler, Lexington Health Department*

“I have to say, for learning as much as I did, I enjoyed Bill’s style more than any other I’ve heard. I learned a lot yesterday, much unrelated to forklifts. I really enjoyed his sense of humor. I told my wife when he first walked in, I thought he was going to be terrible and crusty. But, he quickly got everyone’s attention with borderline harassment (exaggerating) by picking at an entire classroom within five minutes of meeting them. I loved it when he said he liked to draw the foul. That’s me!!!”

—*Jeremy M. Dixon, A&A Mechanical Service, Inc.*

“The best class/training I have been to yet!!!”

—*Bart Cain, Tokico (USA) Inc.*

## about the speaker

*William Pfister, President, Safety Training and Consulting, Inc.*

Pfister was employed with the Indiana Department of Labor for eighteen years, serving five years as an Indiana OSHA inspector and as a safety training consultant for the Bureau of Safety Education and Training (BUSET) for thirteen years. During his tenure with IDOL, he trained over 40,000 people, including training seminars for six universities. Pfister has conducted training seminars in 13 states and has performed more than 1,200 consultations and inspections for private industry. He is a federally authorized instructor with respect to general industry and construction standards. Pfister is a member of the American Society of Safety Engineers. Currently he is the president of Safety Training and Consulting, Inc. which provides occupational safety and health training services throughout the United States.
